

YMCA of Austin – Kinder Camp 2019 – Themes & Descriptions

Sharks `n Minnows Get ready to make a splash! Whether you're a first time swimmer or already comfortable in the water, trained YMCA swim instructors will help you develop the swimming and water safety skills you need to be successful. Campers will visit the pool four days a week for 35-minute swim lessons.

A Bug's Life What does a bug do all day? We explore a bug's life during this week-long adventure of discovery! Creepy crawly games, exploration, and more await your camper. Discover Mother Nature's secrets around the adaptation of bugs, plants, and more.

Art Mania Let's get crafty as we paint and create wonderful pieces of art. Campers will have a fun-filled week painting, gluing, drawing, molding, and cutting while developing fine motor skills and an appreciation for art.

Little Scientists Expand your child's knowledge with a week full of educationally enriching fun! Campers will enjoy hands-on activities while participating in glowing, slimy, stretchy science experiments. Smell, touch, taste, listen, and see your way through a week filled with illuminating exploration.

Superheroes It's a bird...it's a plane...it's a superhero! Grab your cape and join us. Superheroes don't just fly, they help others too. This week campers will learn about everyday heroes like nurses, teachers, firefighters, and more.

On the Move All aboard! Grab your hard hats and hold on tight as we build, move, and create. Our dual focuses this week are construction and things that move. Campers will construct a path and figure out how to get from here to there – by plane, by train, by boat!

Nature's Wonders Learn and grow as we explore the world of gardening, recycling, and more. Campers will be encouraged to flex their green thumbs and learn about plant life cycles!

Wild Things Put on your safari hat and grab your binoculars because it's about to get wild in here! Campers will spend the week exploring and learning about our favorite safari animals – lions, tigers, zebras, and more!

Movers and Shakers Let your heart sing! Or dance...or jam! This week is certain to bring out the musician in you. Campers will have opportunities to create unique instruments, discover how to make different sounds, and learn new dance moves. Rock on!

Digging Up Dinos Dig into history! We will learn all about dinosaurs and the pre-historic era! Enjoy a fun trip to the Dinosaur Park and expand your world as an archaeologist. Get ready to roar!
