

Extend-A-Care YMCA Summer 2021 YMCA Camp Moody Day Camp Themes

Summer 2021 Weekly Theme:	Description:
Leave No Trace	Campers will learn the 7 leave no trace principles and engage in activities that bring the principles to life!
Geology	Campers will learn the basics of geology with a focus on physical geology and how to find and identify different rocks and minerals.
Animal Adaptions	Campers will learn different methods animals use for survival and to adapt to their environment
Birds of Texas	Can you identify the birds around you? We will take a look at the avian life around us and learn how these species live.
Mapping and Orienteering	Campers will learn ways to navigate, create maps, and explore more of the natural environment Camp Moody offers.
Plants and Our Environment	Campers will discover the different parts of the plant, what an ecosystem is and how to identify native Central Texas Trees.
Survival	Could you make it in the wild? We will discover what resources nature has to offer and how to utilize them.
Water and Weather	Campers will dive into understanding the science behind the weather and water cycle.
Pioneering	Campers will learn basics of what it meant to be a pioneer and explore everyday skills it took to survive on the frontier.
