OUR 2025 IMPACT & 2030 VISION

GREATER AUSTIN

Greater Austin Y staff enjoying the annual Gratitude Event

Dear Friends,

Our purpose — elevating quality of life for all — is at the heart of everything we do. Every day at the Y, we see countless small moments that matter: a mom hugging her child after their first swim lesson, a senior laughing with friends during water exercise, a teen discovering confidence in a safe space. These moments aren't measured in numbers — they're felt in our hearts. They give life meaning.

This combined Annual Impact Report and Strategic Plan Update reflects not only what we accomplished in 2025 as a nonprofit, but how those efforts fit into a clear, long-term vision for 2030. It is designed to show the arc of our work — from purpose, to impact, to what comes next — and to invite our community, donors and partners to help shape the future.

One of the most significant milestones in 2025 was opening our first two YMCA Tomorrow Academy™ locations. Walking into those classrooms and seeing infants, toddlers and preschoolers learning and thriving is a powerful reminder of what we stand for. For parents, it's peace of mind. For children, it's a foundation for life. And for all of us, it's a promise that the Y will continue to meet Austin's most pressing needs — from childcare to mental health support to affordable housing

Thank you for helping us keep Greater Austin happy, healthy and connected. None of this would be possible without the support of many.

EMPOWER

AND EDUCATE YOUNG PEOPLE

Peace of mind felt out of reach,
until she found the childcare support she needed.

“As a first-time mom, leaving my baby in someone else’s care was one of the hardest things I’ve ever had to do. When I enrolled my son Eliam at YMCA Tomorrow Academy at just three months old, I was nervous and emotional. But my worries quickly faded once I saw the dedication, patience and attention every teacher and staff member showed from day one.

Today, Eliam is 1.5 years old and thriving. His language and social skills have grown tremendously, and he looks forward to playing with his friends every day. The teachers keep me connected through photos and videos of his milestones, and even reach out when he misses school.

Knowing that while we’re at work, Eliam is not just being watched—he’s being nurtured, guided and truly loved—gives us peace of mind. We are so grateful for the impact YMCA Tomorrow Academy has had on our family and excited to see Eliam continue to flourish for years to come.”

2025 IMPACT HIGHLIGHTS

- Opened YMCA Tomorrow Academy™ locations at Four Points (NW) and Dove Springs (SE), giving 75 working families high-quality care close to home.
- Beat our 2030 water-safety milestone early with 17,792 swim and safety lessons.
- Launched a cutting-edge tech hub for teens ages 12-18: Our first Teen Tech Center opened at our City of Austin/YMCA North Austin Community Recreation Center.

“I’m not just learning—
I’m also inspiring others along the way.”

– Azais R., Teen Tech Center participant at North Austin YMCA

Many teens struggle to find spaces where they feel fully accepted. At the Teen Tech Center, he found an environment that not only encourages self-expression but creative exploration as well. With access to professional photography equipment and mentorship, Azais discovered his passion and realized that his creativity not only shapes his work, but also inspires others.

ELEVATE

QUALITY OF LIFE IN CENTRAL TEXAS

Health challenges can be isolating.
Community can change everything.

// The Y has been an important place for my family and me. They have helped with afterschool care, fitness, counseling, activities and sports. It has given my boys and I the faith, guidance and discipline we need in our lives to better our health mentally and physically.

I live with health challenges, and The Y has given me the opportunity to control my diabetes and prevent it from occurring in my children. We are able to participate at the Y and have access to the programs because of the financial assistance that is available to us. The YMCA is helping me and my family thrive and continuing to make a difference in our lives.

A Welcoming Place to Learn and Grow

For the past two months, I've taken adult swim lessons at East Communities YMCA and had a fantastic experience. My beginner instructor was patient and helpful, and I gained confidence quickly. The Aqua Fit classes are also amazing. I then moved into intermediate lessons with an upbeat, encouraging instructor who gives clear feedback while pushing me to improve. The entire staff has been welcoming.

ENERGIZE

A SUSTAINABLE FUTURE

Townlake Y Reimagined

As our TownLake YMCA (built in 1970) nears the end of its lifespan, we're pursuing a once-in-a-generation opportunity to strengthen how we serve Central Austin, now and for decades to come. We plan to sell a portion of our 4.8-acre West Cesar Chavez property to MP-Austin while retaining the parcel where a new YMCA will be built. Early concepts would pair market-rate housing with up to 90 affordable rental homes, prioritizing two- and three-bedroom residences that support families.

The plan also includes a new YMCA of approximately 110,000 square feet, with 50,000 square feet of youth-programmable space and a 10,000-square-foot early education center. Guided by community listening, this vision is centered on key drivers of health and stability: affordable childcare and early education, wellness and mental health services, affordable housing, and stronger connections to neighboring communities.

This is a community-driven project, and it will take philanthropic support to bring it to life. By thoughtfully leveraging a portion of the property, we aim to expand access in the urban core and generate long-term, mission-sustaining resources that help keep YMCA programs within reach for more people across Greater Austin. Our goal is to break ground by 2028.

ENERGIZING A SUSTAINABLE FUTURE

2028

Breaking ground on a once-in-a-generation investment for Central Austin's well-being.

"We bring people together to build a more sustainable future. Good for today and good for tomorrow."

– Kathy Kuras, President & CEO, Greater Austin YMCA
and Chair of the YMCA Green Network-North America.

The Network is creating toolkits, trainings, and a connected community to help YMCAs advance sustainability, wherever they're starting. This work builds on a century of stewardship and strengthens readiness for floods, fires, and freezes.

2025 IMPACT HIGHLIGHTS

- Shared the vision to reimagine our beloved TownLake YMCA, shaped by community input and built for the future.
- Invested \$1.5M+ back into our centers, improving energy efficiency (HVAC, electrical, plumbing, roofs) and strengthening the member experience through safer, more welcoming spaces, equipment, locker rooms, pools, playgrounds and security.

WHAT'S NEXT:

1. REIMAGINE TOWNLAKE YMCA as a national model for sustainable urban development, breaking ground in 2028.
2. STRENGTHEN COMMUNITY RESILIENCE through affordable housing and land stewardship by 2030 and beyond.
3. DEVELOP & IMPLEMENT A GREEN ACTION PLAN by utilizing the YMCA Green Network Environmental Sustainability Toolkit by 2030.

ENERGIZE A SUSTAINABLE FUTURE.

We strengthen community resilience by meeting basic needs, expanding affordable housing, responding in disasters and protecting a healthy planet, so Greater Austin families can weather challenges and thrive for generations. **Join us in building a stronger, more resilient community.**
